BY
MAHARAJA GRANITE

Siri Maharaja Granites , journey started with a humble beginning as a tile plant facility in Jaipur, in year 1996 Rajasthan and with the passage of time company shift to natural stone like sand stones & granites , with a Vision to deliver world-class quality to its customers. When we started way back in 1996, little did we know That we would come this far, yet, what we did know was that whichever business we would do. It shall be Done with utmost honesty, transparency, dedication and conviction. With this as the founding philosophy of Siri Maharaja Granites and everything that what we stand for, today as company we are committed to Growth, professional excellence and community development.

Siri Maharaja Granites specializes in supply of natural stones in all possible finishes and has efficient workface technical and infra structural set up which allows us to do various value addition in form of intricate stone carvings for architectural and interior use , From traditional to contemporary designs from large to small structures, Siri Maharaja Granites has rich repertoire of architectural stone assemblies, value added stones and ornamental products. with our deep knowledge and understanding of stone, combined with a strong sense of aesthetic and design , we have created works that adorn famous hotels, landmark building, public and office spaces & beautiful homes.

Siri Maharaja Granites has adopted the latest technology from abroad , and ensured that it was operated by the most skilled engineers and professionals who were carefully hand-picked by the company's key stakeholders. Based in Rajasthan , the hub of large variety of stones and with networks spread all across the country we work with a team of master craftsmen designers to cater to national and international markets.

WHY SIRI MAHARAJA GRANITES - TECHNOLOGY & CRAFTMANSHIP

The strength of the company lies in blending creativity with innovation & infusing technology with craftsmanship, Our mission is to create innovative and uniquely beautiful surfaces for all parts of the Building envelop both for interior and exterior applications. Above all , we are driven by a vision that infuses The world's finest crafts with the verve and vibrancy of contemporary design. Combining the skills of the past with the technology of today , this dynamic approach results in high -end surfaces of timeless elegance . Our Portfolio of collections presents a diverse menu of distinctive styles and concepts. Moreover, when the goal is to devise something truly original, we have the experience and expertise to work with our clients in Exploring and developing their own bespoke design.

QUALITY & MANUFACTURING

One of the core values of the company is to give immense importance to the quality of the product we Produce hence every single tile we produce is meticulously checked before being carefully packed and Shipped to the customer , in short, while the beauty of our products is clearly visible on the surface , their Quality runs much deeper.

Texture stone surfaces, a hallmark of architectural elegance and durability, are crafted through a variety of techniques that enhance their natural beauty and functionality. These methods, ranging from traditional hand carving and chiseling to modern machine cutting, sandblasting etc., allow artisans to achieve a diverse array of finishes, from rugged and rustic to smooth and polished. Each technique imparts a unique character to the stone, creating surfaces that not only serve practical purposes but also add aesthetic value to spaces. Whether adorning interior walls, flooring, or exterior facades, texture stone surfaces bring a timeless appeal that blends seamlessly with both contemporary and classic designs.
